

BP MINERALS AMERICA  
MEMORANDUM

To: David Watkins Date: June 13, 1988  
From: Doug Duskin *6/19*  
Subject: Barite Hill: Brunswick Lease Lands

---

I found out today that the Barite Hill tracts of Brunswick's were not swapped with Champion. Brunswick is still the owner of surface and minerals. It's the only land they own in South Carolina now. Bill Moody is gone, though, and they have no one in particular looking after this land. However, if we should want to do any particular surface disturbance such as trenching, we should first notify (with description of planned activity):

Mr. Kenneth Gay  
Brunswick Pulp Land Company  
Box 860  
Brunswick, GA 31521  
(912) 265-5780

He will let you know if it's any problem. I doubt that he would object to anything or even wish to see the area of planned activity, but I believe our lease says we must give advance notice.
